

INTEGRATOR RECRUITING SERVICES

At various points in executing the Rocket Fuel Formula, it can be helpful to work with someone who has more experience and expertise. For those who would like to explore such options, we provide this listing as a resource to consider. The companies listed here are all firms we have either worked with directly &/or through our clients. We have seen them benefit others in this process, and feel they are worthy of your consideration. That said, they are all independent of EOS Worldwide, and we cannot assure any specific results for your situation. Just remember that you are responsible for your own results, and should conduct your own due diligence here - just as you would in any other business relationship you might enter.
